

On behalf of the College of Pharmacy at Qatar University, Prof. Daoud Al-Badriyeh, the coordinator of the graduate studies at the college, is pleased to announce the successful completion of the Academic Programme Review for its Master of Science (MSc) in Pharmacy program, which took place recently in May 2025. The review was conducted by two internationally distinguished external experts: Prof. Mohamed Bakry from Universiti Kebangsaan, Malaysia, and Prof. Fatima Suleman from the University of KwaZulu-Natal, South Africa.

The external reviewers provided highly positive and encouraging feedback, recognizing the program's strengths and alignment with international academic standards. They also offered valuable suggestions for further development, which the program will actively consider as part of its continuous improvement strategy.

Commenting on the review, Dr. Daoud Al-Badriyeh stated, "We are grateful for the constructive and supportive comments from the reviewers. Their insights will help us strengthen the program in future years. I would also like to extend my sincere thanks to the College's leadership, as well as to all our dedicated faculty members who teach, supervise, and contribute to the program's delivery and who played a key role in the preparation for this successful review".

This achievement reflects the College of Pharmacy's unwavering commitment to excellence in graduate education and its dedication to preparing future leaders in pharmaceutical sciences and pharmacy practice.
