

Train the Trainers TOT

Community Service and Continuing Education Center organized Train the Trainers TOT training program for 3 groups of employees of Qatar General Electricity and Water Corporation - Kahramaa.

This distinguished initiative from Kahramaa is to qualify a number of employees to implement training programs in technical fields, transfer their skills and knowledge to their colleagues and promote the concept of sustainability.

The course included many objectives, the most important of which was to provide trainees with the basic skills to deliver training programs professionally, possess confidence, build familiarity between the trainer and the trainees and motivate the trainees. In addition to learning basic speech skills that prepare the trainee to be an organized and influential speaker, the program also provided the knowledge of writing training objectives and understanding the basic principles of preparing training courses.

The course included a set of activities and practical exercises, which witnessed a distinctive interaction and enthusiasm from the trainees. Trainees did daily presentations by applying the seven steps of learning and exhibited their physical and vocal presentation skills.
